

Assurance

My firm Luedecke-Raew & Co. eHG, with seat in Germany gives the present assurance for the firm "Grim" in assurance that we produce golves and shoes from leather for export.

The punch coin and all perforators with them, which we need for our production, are manufacturing from "Grim".

We work with this firm for more than an year and for that period we had not have any problem with their produced resources.

The quality of the coins and perforators satisfyies completely my high requirements.

In future I will continue to work with "Grim" Veliko Tarnovo.
